CERTIFICATE OF GRADING

|                      | Right Elbow | Left Elbow |
|----------------------|-------------|------------|
| GRADE<br>(range 0-3) | 0           | 0          |

NB: The grades are based on a flexed lateral and neutral lateral view of each elbow and represent the opinion of the BVA appointed scrutineers for the radiographs submitted.

The lower grade, the less evidence of elbow dysplasia present.

The overall grade given for both elbows is that given to the elbow with the higher grade.

|                                                |   |
|------------------------------------------------|---|
| Overall<br>Elbow Grade<br>(maximum possible 3) | 0 |
|------------------------------------------------|---|

Ideally dogs with Grade 0 ('normal') elbows should be chosen and dogs with 2 or 3 should not be used for breeding.  
Where EBVs are available these should be used.

WE HEREBY CERTIFY that the grade of the radiographs submitted for the dog identified above was produced using the grading criteria of the BVA/Royal Kennel Club Elbow Dysplasia Scheme

Graded by Ruth Dennis & Brian Turner
